### **NDSCS TO HOLD DUAL-CREDIT WORKSHOP ON JUNE 8**

WAHPETON — The North Dakota State College of Science on June 8 will conduct a workshop on dual-credit opportunities for high school teachers and administrators.

The workshop — which will include NDSCS faculty and high school instructors and counselors from southeastern North Dakota — is scheduled from 9:30 a.m. to 4 p.m. in the Plains and Prairie Room of the NDSCS Student Center. The NDSCS Distance Education office is facilitating the workshop. Kathy Ringdahl, Office Administration instructor, will be the workshop coordinator.

Dual-credit programs certify qualified high school instructors as adjunct faculty and allow students to complete college credits while taking their high school classes. Students in dual-credit classes are introduced to college-level material and potential careers.

A \$4,300 matching grant from North Dakota Tech Prep will fund the workshop. Participating teachers — up to 10 NDSCS faculty members and 25 high school instructors and counselors — will receive \$100 stipends. The grant also will cover mileage for one car from each participating high school. Attendees will provide course syllabi from classes that may be appropriate for dual-credit collaboration.

Anyone with questions on the seminar should contact Margaret Wall, director of distance education, at 1-800-342-4325, ext. 3-2430.

NDSCS is a two-year, comprehensive, residential college in Wahpeton. The State College of Science offers degrees, certificates and diplomas in over 80 academic options in traditional career and technical studies and in the liberal arts. Approximately 97 percent of graduates from its technical programs find jobs in their chosen fields.

Unlike most two-year colleges, NDSCS offers a university atmosphere for its students, complete with residence halls, 35 affiliated clubs and organizations, music groups, theater productions, intercollegiate athletics, intramural athletics and numerous social activities.

NDSCS celebrated its centennial last year. The college opened in 1903 as the North Dakota Academy of Science.
