NDSCS TO PARTICIPATE IN WRIGHT TECHNICAL CENTER CAREER FAIR

WAHPETON, N.D. — The North Dakota State College of Science will be a featured participant in the annual Wright Technical Center Career Fair, scheduled Oct. 18 at the WTC site in Buffalo, Minn.

The fair is designed to provide high school students with information on career and post-secondary education options. The annual event will include high school students from Annandale, Becker, Big Lake, Buffalo, Hanover, Montrose, Delano, Howard Lake, Waverly, Winsted, Maple Lake, Monticello, Rockford, St. Michael and Albertville.

The NDSCS exhibit will focus on the awareness of meaningful employment, college preparation, practical aspects of daily work, chances for advancement and pay rates, among other topics. The NDSCS staff attending the WTC fair will be Harlan Arneson, chairman of the Automotive Technology Department; Don Carlson, co-chairman of the Diesel Technology Department; and Jim Johnson, the Twin Cities-area representative from the NDSCS Enrollment Services Office.

NDSCS is a two-year, comprehensive, residential college in Wahpeton. The State College of Science offers degrees, certificates and diplomas in over 80 academic options in traditional career and technical studies and in the liberal arts. Approximately 97 percent of graduates from its technical programs find jobs in their chosen fields.

Unlike most two-year colleges, NDSCS offers a university atmosphere for its students, complete with residence halls, 35 affiliated clubs and organizations, music groups, theater productions, intercollegiate athletics, intramural athletics and numerous social activities.

NDSCS celebrated its centennial last year. The college opened in 1903 as the North Dakota Academy of Science.
